

Do you know what to do

Here, you see four dogs. Do you know whether you can play with them and can stroke them? Why or why not? Do you walk towards the dog or will you run away? Please, also have a good look at his attitude and his tail. Write your answer in the box under each dog.

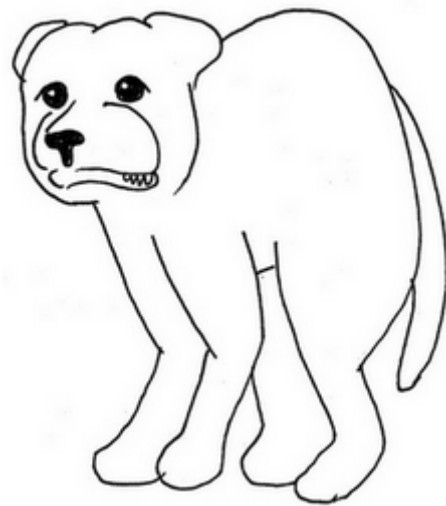

This dog is happy! He maybe even looks anxious. You can pet him under his chin or play with him. You can throw a ball that he will get, or you hide his most favourite toy.

Oops, this dog is angry! You may never pet an angry dog. What should you do? Stand still and do not look at the dog. You should better look down!

This dog is quiet. You can pet him, if his boss agrees. You should always ask a dog's boss whether he agrees you pet his dog. If so, not on his head, but under his chin. He feels fine and feels ok.

This dog is scared. You cannot pet him. Just walk by and do not look at him. That is the best thing you can do.
